

Non-Employee Job Description

Clinical Assistant – Registered Nurse

Role and Scope:

Clinical accountabilities allow the individual to function subject to any licensure requirements and to exercise judgment in the care of patients under the supervision of the sponsoring physician who has been accorded privileges to provide such care and who has ultimate responsibility for the patient's care. The practitioner shall not function outside this scope of practice.

Essential Job Functions:

General:

- Provides nursing care under the supervision of sponsoring physician.
- Makes rounds with or under the supervision of sponsoring physician.
- Records patient progress in medical record which will be authenticated by sponsoring physician.
- Records health history obtained by physician and physical examination performed by physician, at the time completed, which will be authenticated by sponsoring physician. (Not privileged to write or dictate the History and Physical.)
- Records or communicates verbal orders issued by sponsoring physician after consultation with sponsor and at his/her request, which must be authenticated by sponsoring physician.
- Provides health counseling and guidance, and instructions to patients regarding diet, medications, disease education, exercise, discharge plans, and follow up care as prescribed by the sponsoring physician.
- Performs minor treatments as determined by completed competencies. Notes treatment in the progress notes of the patient's medical record.
- Assists sponsoring physician with other treatments and/or examinations.

Additional: _____

Minimum Qualifications:

Knowledge/Education	Must be licensed by the state to practice as a Registered Nurse.
Experience	Employed by a member of the Medical Staff
Licensure, Registration, Certification	Must possess a current state license to practice as a Registered Nurse.

I have read the above job description. I understand that I may not function outside the scope of the job description above and must function under the supervision of my sponsoring physician.
